## WORK HISTORY

---

### Front End Developer

06/2017 to 08/2019

**Ondicom** – Wynyard, Sydney

- Developed SEO friendly responsive web apps and websites using HTML5, CSS3, Sass, JavaScript, AJAX, JSON and JQuery that meets the business and user goals.
- Understood design layout from UX team and converted the page using web tools from psd/sketch files.
- Worked with a team of front-end developers to build UI design concepts and prototypes.

- Created HTML email templates, banners, landing pages and newsletters for e-mail marketing campaigns.
- Created and implemented a custom CSS grid system, with CSS media queries for mobile responsiveness.
- Maintained active conversation with clients to ensure the site met its needs.
- Used version control system (Git) for recording to day to day updates of projects.
- Maintained client websites on an ongoing basis.

#### **Web Developer Intern**

01/2017 to 05/2017

**Thinkun** – Newtown, Sydney

- Developed mobile friendly and responsive websites using Wordpress, HTML5, CSS3, Sass, PHP, AJAX, JavaScript, JQuery, Bootstrap, gulp, bower, npm, node, confluence and git.
- Migrated contents from clients old site to the new one.
- Maintained proper documentation of processes and updates of projects using confluence.
- Developed various JavaScript functional prototypes like shadowboxes, slider carousals, tickers, event calendar filters, language switcher etc. for code reusability.
